

# Monica Mitchell

Assistant Vice President – Technology – API Platforms and mS Platforms

Monica joined the company via the Leadership Development Program in 1994 with a Central Office assignment with Southwestern Bell Telephone Company. Her career has included assignments in landline and wireless companies in various departments including Residential Sales and Service, RF Engineering, a network operations center, customer Operations, Information Technology and Technology Development. Some recent assignments include leading a team to develop software supporting activations of tablets like the iPad and setting up provisioning and billing for the Connected Car project. She is currently working on API Platforms for internal and external developers. She is a winner of the President's Volunteer Service Award, serves as AT&T's representative to the Aerospace and Mechanical Engineering Advisory Board for the University of Oklahoma College of Engineering, and is on the Board of Trustees for AAS-SW and serves as Chairman of the Board for its ASEF 501(c)3 fundraising charity. Monica lives in Irving, TX with her husband Allen and son Connor.
